

Country:	Italy
Organisation	Coldiretti, UNIFI

Title of proposed session:	How irregular could become regular? Possible shared benefits.
Main theme/ social challenge & innovation covered:	The main purpose of the thematic session is to stimulate a debate and allow a fruitful exchange among partners around the theme of irregular work in the agricultural sector and the possibility to tackle these issues with SIs, in particular the ones used in the Pilot session. After an overview of the phenomenon, the attention will be given to the description of the identified social innovations born to tackle the challenge, and on how to make those solutions more accessible to farmers and the farming community.

Summary of the purpose of the session:	By presenting and discussing together the issues that SIs could help solving and at the same time share possible barriers.
Target audience:	Farmers, policy makers, associations.
Attraction:	Those that are going to participate will be participating to an active session when ideas are share and solutions presented.

Format:	TBD. The workshop will include presentations from the SI, organization, participants to the Pilot and an open discussion.
